

KGP Hustle House × Vani Institute

Website Growth Audit

Hi sir, our team went through your site and identified these 5 things that might be holding your site back from getting more students. Skim the entire audit report and check the site below for the mockup we created.

5 Key Website Problems Affecting Conversions

1. Homepage Is Too Long & Distracting

The website feels more like a full information portal than a focused landing page. Parents and students get overwhelmed before reaching the main CTA.

Fix:

Create a shorter, conversion-focused homepage with clear flow:
Hero → Results → Programs → Trust → CTA.

2. Slow Loading & Broken Images

Several images are not loading properly, which immediately reduces trust and makes the website feel outdated.

Fix:

Optimize image delivery, compress assets, and remove broken media sections to improve speed and professionalism.

3. Weak Visual Hierarchy

Too many sections compete for attention. Important elements like results, admissions, and CTAs don't stand out enough.

Fix:

Use better spacing, larger headlines, cleaner cards, and stronger CTA buttons.

4. No Clear Student Journey

The page lacks a defined conversion flow. A visitor should instantly know:

- what Vani offers,
- why it's trusted,
- and what to do next.

Fix:

Guide users through a simple structure:

Problem → Results → Programs → Testimonials → Free Counseling CTA.

5. Mobile UX Feels Heavy

The current design is visually crowded and difficult to scan on mobile devices, where most traffic likely comes from.

Fix:

Use fewer sections, shorter content blocks, sticky mobile CTAs, and faster-loading components.

SEO Opportunity

Students actively search:

- “Best GATE coaching institute”
- “Top ESE coaching in Hyderabad”
- “Online GATE coaching India”

Vani already has strong brand authority, but the website structure isn't fully optimized to capture high-intent search traffic.

With proper SEO landing pages, local optimization, and conversion-focused structure, the site can generate significantly more qualified student inquiries organically.
